

Time and Security Solutions for Local and Regional Banks

Are you Protecting your Most Valuable Assets!

Banks are prompted now more than ever before to secure their people and property. Local and regional banks are seeking a reliable solution that will help them monitor every transaction, control access, protect customers and staff members, while securing their facility.

Amano offers a comprehensive total solution that will meet the challenges of every bank. Our sophisticated digital video management and access control, coupled with hi-tech biometrics, time and attendance, parking and floor care systems provides the total solution through one resource. We design and manufacture our products with our customers in mind.

Security Solutions driven by your needs.

Video Surveillance Monitoring

Amano DVMS (Digital Video Management System) provides cutting-edge video security using the latest analog or IP camera configurations and digital video recorder solutions. Amano's solutions offer powerful search tools for rapid incident tracking, excellent megapixel processing delivering outstanding detail, especially when processing recordings from IP cameras. Combined with flexible video analytics, this offers a robust video security solution.

Manage Secure Areas with Access Control

- **Single Branch, Credit Union or Check Cashing Facilities**

If you need an easy to operate access control system that will manage up to 8 doors in a single location, Amano's Nexus Lite is the optimal solution for you. Our simple yet flexible system provides keyless access using our vandal resistant, patented metal proximity reader technology. The Nexus Lite delivers effective real-time web based access control. This economical system has two unique options - the touch screen version (first of its kind) that provides easy registration and reporting and the web browser that makes system setup simple.

- **Multi-Branches**

If you wish to manage a small group of bank branches, the Nexus 220 model provides security at every branch through centralized integration and monitoring at a regional level. This mid-range access control application is the optimal choice for individual branches. Using vandal resistant patented metal proximity readers, the Nexus 220 can manage up to 128 readers with entry and exit control including all-door lock-down options.

- **Enterprise Banking**

The AmanoNet is our multi-site access control solution utilizing a networkable client/sener system to manage a single door or global enterprise. This scalable enterprise system seamlessly integrates with Amano's vandal resistant metal readers, cutting-edge cameras and network video recorder systems for hundreds of locations. Thereby, providing a total solution to easily manage through one resource.

CCTV and Access Control for Single or Multi-Site Locations

Biometrics and Time Solutions driven by your needs.

Secure Identification with Biometrics

Amano Fingerprint leads the industry in biometric solutions with its state-of-the-art fingerprint readers powered by Sagem technology, the leader in fingerprint processing software for U.S. and International Security and Crime processing organizations. Integrated fingerprint reading provides the highest level of access security and the convenience of keyless entry.

Employee Time Tracking Made Simple

Managing your payroll can be a hassle if you are not equipped with the right and time and attendance solution. Amano's Time and Attendance systems deliver easy-to-use employee time tracking solutions to effectively manage your payroll. Amano's suite of applications range from low to high end enterprise software, coupled with a broad range of hardware devices, from badge swipe to biometrics. Our software seamlessly integrates with Amano's access control and most popular payroll applications such as ADP, QuickBooks, Ceridian, Peachtree, Paychex and more.

Safety Deposit Transaction Tracking

Amano helps you track customer's movements in the safety deposit section of your bank. The TS-3000i[®] electronic time recorder conveniently allows customers to time stamp validated time sync with NIST for their records. The TS-3000i[®] provides highly accurate time that is +/- 3 seconds per week.

Amano Integrated Solutions driven by your needs

Track Movements with Parking Validation

AmanoMcGann Parking is the industry leader in revenue control parking systems. Combined with the flexibility to integrate time and attendance and access control in a total resource, Amano offers a powerful, economical solution for mid-sized bank branches and financial offices.

Reduce Cleaning Costs

Amano Pioneer Eclipse helps reduce cleaning costs where banks elect not to outsource their cleaning requirements. Amano's range of efficient propane powered cleaning equipment allows bank cleaners to burnish much larger areas of floor space in a fraction of the time and at a lower cost.
